

Ibrahim Abdelsattar

Data Scientist

Egypt-Cairo | +201021675887 | LinkedIn: <https://www.linkedin.com/in/ibrahim-abdelsattar/> | ibrahimabdelsattar042@gmail.com | [Portfolio](#) | [GitHub](#) | [Kaggle](#)

SUMMARY

Ambitious Computer and Artificial Intelligence student passionate about leveraging technology to solve real-world problems. Helping +50 students from Egypt and outside to identify their track and Known for being proactive, collaborative, and committed to continuous learning through hands-on experiences. I have also enrolled in several online internships, including *Truvaian Intelligence*, *Elevvo*, and others to gain practical industry exposure.

WORK EXPERIENCE

AI Engineer Intern

Sep 2025 -Nov 2025

HAMS.AI:

- **Designed, trained, and fine-tuned** ML/DL models, including dataset preprocessing, optimization for scalability, and deployment in production environments.
- **Conducted continuous monitoring** and retraining to improve model accuracy, ensuring efficient and reliable AI solutions.

AI & Data Science Intern

Oct 2024 – May 2025

Digital Egypt Pioneers Initiative (DEPI):

- **Developed and deployed** multiple end-to-end machine learning projects using Python, SQL, and Tableau, improving project completion rates and providing actionable insights through interactive dashboards.
- **Optimized AI model deployment** and efficiency with MLOps techniques and prompt engineering, achieving up to 30% performance improvement and 40% faster deployment.

Freelancer Data Scientist:

Jun 2024 – Present

- **Built and deployed** machine learning models to solve business challenges, including predictive analytics and customer insights.
 - **Collected, cleaned, and analyzed** large datasets using Python, SQL, and web scraping to extract actionable insights.
-

Volunreering

AI & ML Instructor

Feb 2024 – Sep 2025

4MIND:

- Explain AI concepts, including machine learning and deep learning, while assigning practical tasks to enhance hands-on learning.
- Review and provide feedback on students' work, ensuring their understanding and skill development in AI applications.

Instructor

Sep 2025 - Present

FBY (Ministry of Youth and Sports)

- Designed engaging learning materials and provided mentorship, fostering innovation and problem-solving among participants.
-

SKILLS

Technical Skills:

Python | SQL | ML | DL | Neural Network | DNN | RNN | NLP | LLM | RAG | Scikit-Learn | Tenserflow | Hugging Face | Web Scraping | Excel | Power BI | Probability | Linear Algebra | Calculus | Git and GitHub | Statistics

Soft Skills:

Problem solving | Communication | Team & Independent work | Time Management | Attention to detail | Team Lead | Critical Thinking | Storytelling

Projects

MR NLP Robust RAG Chatbot :

- Developed an adaptive **RAG-based chatbot** leveraging **Hugging Face LLMs**, integrating 3 NLP books (vector index) and 1 NLP book (knowledge graph), enabling retrieval from a knowledge base of 2,000+ chunks with 90%+ response relevance.
- **Enhanced learning experience** by implementing 4 interactive modules (chat, quiz, progress tracking, and voice input), increasing user engagement by 35% in testing.

Arabic Egyptian Sentiment Analysis :

- **Natural Language Processing (NLP)** – Built a sentiment analysis model for Egyptian Arabic, classifying text into positive, negative, or neutral categories using Python and NLP libraries.
- **Data Collection & Modeling** – Collected and preprocessed dialect-specific data, then trained and evaluated models to detect sentiment in colloquial Arabic with improved accuracy.

Content Moderation System :

- **Built a Content Moderation System** using TF-IDF + Naive Bayes, achieving 91.2% accuracy and handling over 150K comments across 6 toxicity categories (*toxic, severe toxic, obscene, threat, insult, identity hate*).
- **Deployed the model with Streamlit and integrated** with GitHub for interactive testing, enabling real-time detection of harmful comments for potential use in social media platforms and online communities.

Education

Oct 2024 – Jun 2027

MTI University – Cairo, Elmoqatam
Bachelor Computer and Artificial Intelligence (GPA 3.5)

Language

- Arabic - Native
- English - Intermediate (B2)
